Greenfield

OUTDOOR PLEASURE

GREENFIELD è una ricca e versatile raccolta di proposte per l'arredo di tutte le aree esterne. Collezioni interpretate con sapiente maestria nella ricerca estetica e materiale al fine di rendere la vita all'aperto un'esperienza di libertà e convivialità rilassata e sospesa nel tempo. Design e materia seguono un filo conduttore di eleganza e perfetta armonia integrandosi nei vari spazi d'ambiente. Lasciatevi ispirare dal lifestyle Roberti.

GREENFIELD is a prestigious and versatile ensemble of suggestions for the outdoor furnishing. The various collections perform the result of a skilful and professional production process joined with a concrete research of design and selection of materials to make the outdoor living an experience of free and relaxing conviviality. Design and materials follow an unique line of elegance and perfect harmony integrating themselves in the different living spaces. Be inspired by the Roberti lifestyle.

GREENFIELD ist ein hochwertiges und vielseitiges Vorschlags-Ensemble für die Einrichtung des Außenbereichs. Die Vielfalt der Kollektionen kann die fachliche Meisterschaft, das gelernte Design und die Materialien-Suche bestens ausdrücken. Das Outdoor Leben wird somit eine freie, entspannende Lebenserfahrung die man gerne im Freundeskreis teilt. Design und Materialsuche folgen eine einzige elegante Linie und integrieren sich harmonisch in den verschiedenen Ambiente. Lassen Sie sich von dem Roberti Lifestyle inspirieren.

GREENFIELD est une collection riche et éclectique pour l'ameublement d'extérieur. Les différentes collections savent interpréter une grande maîtrise et une recherche constante de design et matériaux pour rendre la vie à l'extérieur une expérience unique et relaxante. Design et matière suivent un fil conducteur d'élegance et harmonie et sont capables de s'intégrer dans les situations les plus différentes. Laissez-Vous inspirer par le lifestyle de Roberti.

Gravity

(Design: Technical Emotions)

Un divano sospeso che diventa uno spazio intimo e accogliente dove affidarsi al leggero dondolare per un totale rilassamento.

The new swing-sofa has an intimate welcoming space where you can relax on a light rocking.

Das neue Swing-Sofa ist eine gemütliche und vertraute Nische für die volle Entspannung durch ein leichtes Schaukeln.

Le Swing-Sofa offre un coin accueillant et intime pour se relaxer avec un balancement léger.

Portofino

(Design: Studio Balutto Associati - Santiago Sevillano)

Dalla cultura del mare nasce la collezione Portofino; terra, cielo ed il blu del mare: questi i colori proposti per arredi dal gusto mediterraneo.

The Portofino collection comes from the seafaring culture; it has the colours of the earth, of the clear sky and of the deep blue water: a true mediterranean style.

Die Kollektion Portofino kommt von einem Seemanns-Lebenstil: hat die Farben von der Erde, vom Himmel und tiefes blaues Wasser: echtes mediterran Styl.

La collection Portofino a ses origines dans la culture marine: les couleurs de la terre, du ciel clair et le bleu de l'eau. Un véritable style méditerranéen.

Technical data

IT. Tutte le strutture sono realizzate in alluminio e/o acciaio; la finitura è con vernici a polveri a garanzia di leggerezza, durata e resistenza agli agenti atmosferici.

Per gli intrecci si utilizzano il **Sunweave** (fili di polietilene) ed il **Sunloom** (fili di poliestere rivestiti in PVC); Sunweave e Sunloom sono filamenti testati SGS.

La collezione **PORTOFINO** ha parti intrecciate con **Nautic Rope** (corda nautica), una corda in poliestere, robusta e resistente all'acqua ed alla salsedine.

Sunweave, Sunloom e Nautic Rope sono resistenti al caldo, al freddo, all'acqua salata ed ai raggi UV.

Nel day-bed Portofino con baldacchino è previsto un telo parasole di copertura in leggero tessuto acrilico.

La collezione **SAMBA RIO** prevede l'utilizzo del **Textilene** per sedute e schienali. Il Textilene è un tessuto in PVC con piccole forature che permettono areazione e drenaggio dell'acqua. Il Textilene è resistente al caldo, al freddo e all'acqua salata.

La manutenzione di tutti i mobili è oltremodo semplice: lavare sia le strutture che le parti intrecciate con acqua fredda e sapone neutro aiutandosi con una spazzola a setole morbide e una spugna. Sciacquare con acqua fredda e far asciugare bene all'aria.

Non usare detergenti aggressivi o prodotti al cloro.

Per maggiori dettagli si raccomanda la lettura del cartellino 'manutenzione' che viene fornito alla consegna dei mobili. La durata dei mobili è subordinata ad un corretto utilizzo e ad una adeguata manutenzione come da noi suggerito. Si declina ogni responsabilità per danni a persone o cose causati da uso improprio ed atti vandalici.

Roberti si riserva la facoltà di apportare modifiche o migliorie senza alcun preavviso.

EN. All structures are in aluminum and/or stainless steel powder coated to ensure lightness, durability and resistance to atmospheric agents.

Sunweave (polyethylene fibres) and **Sunloom** (polyester fibre coated PVC) are used for weaving some furniture parts. Sunweave and Sunloom are both SGS tested materials.

The **PORTOFINO** collection has parts woven with **Nautic Rope**, a robust and water resistant polyester rope.

Sunweave, Sunloom and Nautic Rope withstand heat, cold, water and sea spray as well as ultraviolet rays.

The day-bed Portofino with canopy has sun protecting covers in light acryl fabric.

In the **SAMBA RIO** collection all seating parts are covered with **Textilene**; this is a PVC textile with open texture permitting ventilation and water drainage. Textilene withstands heat and cold as well as marine water.

The maintenance of all furniture is very easy; just wash it with cold water and neutral soap, using a soft brush and a sponge if necessary, then rinse with cold water and let it air dry.

Do not use aggressive detergents or chlorine.

For more detailed instructions please carefully read and follow our care and maintenance' leaflet joined to the furniture on delivery.

The durability of each single furniture piece is subject to proper use; we deny any responsibility for damages caused by improper use or vandalism. Roberti has the right to modify or upgrade the product without prior notice.

DE. Alle Möbel-Gestelle sind aus Aluminium und/oder Edelstahl pulverbeschichtet die Leichtigkeit, Widerstandsfähigkeit gegen Witterungseinflüsse und Langlebigkeit garantieren.

Für die geflochtene Teile werden **Sunweave** (Polyethilene Faser) und **Sunloom** (Polyester Faser beschichtet mit PVC) verwendet. Sunweave und Sunloom sind SGS getestet.

Die Kollektion **PORTOFINO** hat Teile die mit **Nautic Rope** geflochten sind. Nautic Rope ist ein Seil aus Polyester, fest und gleichzeitig weich.

Sunweave, Sunloom und Nautic Rope sind beständig gegen Hitze und Kälte, Wasser und Salzurückstände wie auch gegen UV-Strahlen.

Das Modell day-bed mit Himmel-Sonnenschutz hat eine leichte Acrylstoff Bespannung.

Stühle und Sonnenliegen aus der Kollektion **SAMBA RIO** haben Sitze, Rücken und Liegefläche aus **Textilene**, ein PVC Textil. Textilene ist beständig gegen Hitze und Kälte, Wasser und Salzurückstände.

Die Langlebigkeit der Möbel ist mit einer ordentlichen Verwendung verbunden; die Pflege ist leicht: einfach die Möbelteile mit Wasser und neutraler Seife reinigen, evtl. mit der Hilfe einer weichen Bürste, dann mit kaltem Wasser abspülen und trocknen lassen. Die Verwendung von aggressiven Reinigungsmitteln und Chlor sind absolut zu vermeiden.

Wir bitten, die auf unseren 'Care and maintenance' Brochüre angegeben Empfehlungen, aufmerksam zu folgen. Die Brochüre wird mit den Möbel geliefert. Die Langlebigkeit der Möbel ist mit einer ordentlichen Verwendung verbunden.

Wir lehnen jegliche Verantwortung für missbräuchliche Verwendung ab. Roberti behält sich das Recht vor, ohne jegliche Benachrichtigung, Änderungen oder Produktverbesserungen vorzunehmen.

Wir lehnen jegliche Verantwortung für missbräuchliche Verwendung ab. Roberti behält sich das Recht vor, ohne jegliche Benachrichtigung, Änderungen oder Produktverbesserungen vorzunehmen.

FR. Toutes les structures sont en aluminium et/ou en acier inoxydable traités avec une finition spéciale pour extérieur qui garantie résistance aux agents atmosphériques ainsi que durabilité.

Pour les parties tressées on utilise le **Sunweave** (fil de polyéthylène) et le **Sunloom** (fil de polyester avec revêtement en PVC); Sunweave et Sunloom sont testés SGS.

La collection **PORTOFINO** a le tressage en **Nautic Rope**, un fil de polyester très robuste et flexible, avec une forte résistance aux intempéries.

Sunweave, Sunloom et NAUTIC ROPE sont résistantes à la chaleur et au froid, à l'eau et à la saure ainsi que aux rayons UV. L'élément day-bed avec baldaquin a des toiles parasol dans un léger tissu acrilique.

Les chaises et les baignes de soleil de la collection **SAMBA RIO** ont l'assise et dos en **Textilene**, un tissu en PVC ajouré qui permet la ventilation et le drainage de l'eau.

Le Textilene résiste à la chaleur et au froid, à l'eau et à la saure. La durée des meubles est liée à une utilisation correcte. L'entretien est très simple: il faut laver les meubles avec de l'eau froide et savon neutre en utilisant une brosse souple.

Après rincer et faire essuyer à l'air. Il faut absolument éviter l'utilisation de détergents agressifs ou du chlore.

Nous conseillons de lire et suivre les instructions données dans la brochure 'care and maintenance' que nous attachons aux meubles au moment de la livraison.

La durée des meubles est donc en rapport à un usage et un soin correct: nous déclinons toute responsabilité pour des dégats provoqués par une mauvaise utilisation ou actes de vandalisme.

Roberti se réserve la faculté d'apporter des modifications ou améliorations aux produits sans aucun préavis.

Fabrics & Covers

IT_ TESSUTI

Roberti propone una vasta gamma di tessuti adatti all'uso esterno con caratteristiche diverse. Tutti hanno un'alta resistenza ai raggi UV. Sono compresi in 4 categorie di prezzo.

GRUPPO A propone un'ampia scelta di tessuti adatti ad un uso interno ed esterno abbinati a imbottiture in poliuretano espanso consigliate per aree coperte (in/out) o protette.

GRUPPO A1 offre una vasta gamma di tessuti adatti ad uso esterno, acrilici (Sunbrella) ed in polipropilene abbinati a imbottiture in poliuretano espanso con uno speciale rivestimento in tela poliestere idrorepellente.

I cuscini morbidi degli schienali ed i piccoli cuscini decorativi contengono un mix di chips di poliestere racchiusi in una federa in poliestere idrorepellente.

E questa la proposta ideale per un cuscino per esterno ove si unisce il comfort di un tessuto alla garanzia di protezione dell'imbottitura.

GRUPPO B1 I tessuti della categoria B1 sono composti da PVC, Poliestere e Poliuretano; sono tessuti idrorepellenti. I tessuti B1 abbinati alle imbottiture in poliuretano espanso con speciale rivestimento in tela di poliestere offrono quindi una quasi totale impermeabilità all'acqua. Vi possono essere piccole infiltrazioni di acqua attraverso le cuciture e quindi per garantire una veloce asciugatura all'interno si raccomanda di aprire le cerniere ed arieggiare l'interno del cuscino regolarmente. I tessuti del Gruppo B1 sono disponibili solo per alcuni modelli della collezione come specificato nel listino prezzi.

GRUPPO C1 I tessuti della categoria C1 sono composti da PVC, Poliestere e Poliuretano; hanno una leggera imbottitura in poliestere fissata con termosaldata a righe orizzontali e sono idrorepellenti. I tessuti C1 abbinati alle imbottiture in poliuretano espanso con speciale rivestimento in tela di poliestere offrono quindi una quasi totale impermeabilità all'acqua. Vi possono essere piccole infiltrazioni di acqua attraverso le cuciture e quindi per garantire una veloce asciugatura all'interno si raccomanda di aprire le cerniere ed arieggiare l'interno del cuscino regolarmente.

I tessuti del Gruppo C1 sono disponibili solo per alcuni modelli della collezione come specificato nel listino prezzi.

I tessuti delle categorie A e A1 possono essere lavati a mano, in acqua fredda (max. 30°C) ed asciugati all'aria. Stiratura a bassissima temperatura.

I tessuti delle categorie B1 e C1 devono essere periodicamente puliti con un panno umido e leggero detergente neutro. Devono essere regolarmente asciugati all'interno aprendo la cerniera e permettendo l'aerazione al fine di evitare il formarsi di muffe. Eventuali macchie devono essere pulite prontamente per evitare che si stabilizzino.

Si raccomanda di seguire scrupolosamente le istruzioni di lavaggio e manutenzione indicate nel 'cartellino qualità' fornito coi mobili. Tutti i cuscini sono realizzati esclusivamente in Italia con utilizzo di imbottiture di origine italiana.

COVERS_ Per una migliore protezione dei mobili consigliamo l'uso delle nostre coperture in uno speciale tessuto impermeabile (PVC+Poliestere). Le coperture proteggono dalle intemperie e dal depositarsi di polveri e impurità atmosferiche. Le coperture sono disponibili per una parte dei modelli come indicato in listino.

EN_ FABRICS

Roberti offers a wide choice of fabrics suitable for outdoor use and with peculiar features. All the fabric are UV resistant and have 4 price levels.

GROUP A offers a wide choice of fabrics suitable for indoor and outdoor use combined with standard polyurethane paddings to be used indoor or in outdoor sheltered (in/out) areas.

GROUP A1 offers a wide choice of fabrics for outdoor use, some of them acryl fabric from Sunbrella, some others polypropilene fabrics, all combined with a polyurethane padding protected by a polyester cover, water repellent. The soft back pillows and the decorative pillows contain a mix of polyester chips inside a polyester, water repellent, cover.

This is the ideal proposal for cushions you can leave outside, combining the comfort of a fabric with the full protection of the padding.

GROUP B1 the fabrics B1 - composed of PVC, Polyester and Polyurethane - are water repellent. The B1 fabrics combined with padding polyurethane foams completely protected by a polyester cover offer the best waterproof solution.

It can happen that some water enters through the stitches; we therefore suggest to regularly open the fabric cover zipper to permit ventilation to the inside part of the cushion.

Fabrics B1 are available only for part of the collection, as specified in the pricelist.

GROUP C1 the fabrics C1 - composed of PVC-Polyester and Polyurethane - have a light polyester padding fixed by a thermowelding with horizontal stripes and are water repellent.

The C1 fabrics combined with padding polyurethane foams completely protected by a polyester cover offer the best waterproof solution. It can happen that some water enters through the stitches; we therefore suggest to regularly open the fabric cover zipper to permit ventilation to the inside part of the cushion.

Fabrics C1 are available only for part of the collection, as specified in the pricelist.

All fabrics A and A1 can be hand washed on cold water (max. 30° C) and air dried. Ironing only at very low temperature.

Fabrics B1 and C1 must be regularly cleaned with a wet cloth and a mild detergent, but not soaked.

It is also recommendable to open zippers of fabric covers regularly in order to permit ventilation inside the cushion to avoid mold stains.

Stains should be immediately removed to prevent they leave an imprint.

It is highly recommendable to read and carefully follow all suggestions given in the 'care and maintenance' leaflet delivered with the furniture. All cushions are entirely MADE IN ITALY using paddings of italian origin.

COVERS_ For an additional protection of the furniture we suggest our special covers, water repellent, made of PVC and Polyester. The covers protect from weathering as well as from dust and atmospheric impurities. The covers are available for part of the models as indicated in the pricelist.

DE_ TESSUTI - STOFFE

Roberti bietet eine breite Auswahl an Stoffen für den Außenbereich mit unterschiedliche Eigenschaften. Alle Stoffe haben eine starke Beständigkeit gegen UV-Strahlen. Es gibt 4 verschiedene Preiskategorien.

GRUPPE A Breite Auswahl an Stoffen die für den Innen- wie auch für den Außenbereich geeignet sind. Die Kissen haben Polyurethanschäum (diese Zusammenstellung empfehlen wir für überdeckte oder beschützte Flächen).

GRUPPE A1 Breite Auswahl an Stoffen die für den Außenbereich geeignet sind: Acryl-Stoffe von Sunbrella und neue Polypropilene-Stoffe. Die Kissen haben Polyurethanschäum überzogen mit einem Polyestergerewebe, wasserdicht. Die weichen Rückenissen und die kleine Wurfkissen enthalten ein Mix aus Polyester-Chips und sind durch einer Polyester Hülle, wasserabstoßend, geschützt.

Diese Kombination Stoff-geschützte Kissenfüllung ist die beste Lösung für den Außenbereich und bietet den richtigen Komfort sowie eine lange Haltbarkeit des Kissens.

GRUPPE B1 Die Stoffen der Kat. B1 sind aus PVC, Polyester und Polyurethan und wirken wasserabstoßend. Der Schaumstoff ist aus Polyurethan überzogen mit einem Polyestergerewebe, wasserdicht. Sollte etaws Wasser eindringen durch die Naht, empfehlen wir die Kissen abtrocknen zu lassen: einfach den Reißverschluss öffnen und das Kissen-Kern belüften und abtrocknen. Die B1 Stoffe sind nur für einige Modelle verwendbar, die auf der Preisliste angegeben sind.

GRUPPE C1 Die Stoffen der Kat. C1 sind aus PVC, Polyester und Polyurethan und haben einen leichten Polyester-Schaum der mit einer waagerechten Heißversiegelung befestigt ist. Der Schaumstoff ist aus Polyurethan überzogen mit einem Polyestergerewebe, wasserdicht. Sollte etaws Wasser eindringen durch die Naht, empfehlen wir die Kissen abtrocknen zu lassen: einfach den Reißverschluss öffnen und das Kissen-Kern belüften und abtrocknen. Die C1 Stoffe sind nur für einige Modelle verwendbar, die auf der Preisliste angegeben sind.

Die Stoffen der Kat.A und A1 sind Hand waschbar (kaltes Wasser max. 30°C) und müßen an die Luft trocknen. Bügeln nur mit sehr niedriger Temperatur. Die Stoffen der Kat. B1 und C1 müßen regelmäßig mit einem feuchtem Lappen und neutraler Seife gereinigt werden.

Um Schimmel-Bildungen zu vermeiden, empfehlen wir ein regelmäßiger Kissen-Abtrocknen. Stoff-Hülle öffnen und das Innenleben des Kissens belüften und abtrocknen. Ev. Flecken müßen sofort entfernt werden.

Wir bitten die Pflegehinweise auf unseren Qualitäts-Schild (geliefert mit der Möbel) genau zu beachten. Alle Kissen sind ausschließlich in Italien hergestellt mit italienischem Schaumstoff.

COVERS_ Für einen besseren Schutz der Möbel, bieten wir wasserdichte Schutzhüllen aus PVC und Polyester. Dadurch werden die Möbel vom Unwetter sowie auch vom atmosphärischen Unreinheiten bewahrt. Die Schutzhüllen sind nur für sämtliche Modellen - wie in der Preisliste angegeben - erhältlich.

FR_ TISSUS

Roberti offre una large gamme de tissus conseillés pour l'extérieur avec des caractéristiques différentes. Tous les tissus sont résistants aux rayons UV et sont représentés en 4 catégories de prix.

GROUPE A offre une large gamme de tissus pour l'intérieur et l'extérieur combinés avec des rembourrages en polyurethane: cette version est conseillée pour des lieux couverts (in/out) où abrités.

GROUPE A1 offre une large gamme de tissus pour l'extérieur avec des rembourrages des coussins en polyurethane revêtus avec un tissu en polyester imperméable. Une partie des tissus est en acryl (Sunbrella) et une partie en polypropilene. Le rembourrage des coussins souples des dos et les petits coussins décoratifs sont en chips de polyester enfermés dans une housse en polyester imperméable à l'eau.

Cela est la proposition idéale pour des coussins pour l'extérieur tout en assurant le confort des tissus et la résistance à l'eau des rembourrages.

GROUPE B1 Les tissus B1 sont en PVC, Polyester et Polyurethane; ils sont des tissus hydrofuges.

Les mousses de rembourrages sont toujours enfermées dans les revêtements en polyester ainsi le coussins est presque complètement impermeable. Il peut y avoir un passage d'eau très léger à travers les coutures. Nous conseillons donc de ouvrir les fermetures éclair et faire sécher la partie intérieure du coussin avec régularité. Ça évitera la formation de moisissure à l'intérieur. Les tissus B1 sont disponibles uniquement pour certains modèles de la collection, comme spécifié dans la liste des prix.

GROUPE C1

Les Tissus C1 sont en PVC, Polyester et Polyurethane; ils ont un rembourrage léger en polyester fixé par thermocollage à bandes horizontales.

Il sont des tissus imperméables à l'eau. Les mousses de rembourrages sont toujours enfermées dans les revêtements en polyester ainsi le coussins est presque complètement imperméable. Il peut y avoir un passage d'eau très léger à travers les coutures.

Nous conseillons donc de ouvrir les fermetures éclair et faire secher la partie intérieure du coussin avec régularité. Ça évitera la formation de moisissure à l'intérieur.

Les tissus C1 sont disponibles uniquement pour certains modèles de la collection, comme spécifié dans la liste des prix.

Tous les tissus A et A1 peuvent être lavés à la main avec eau froide (max. 30°C) et doivent sécher à l'air.

Tous les tissus B1 et C1 peuvent être nettoyés en utilisant un chiffon souple et une solution nettoyante douce, sans les laver. S'il y a des taches il faut les enlever au plus vite avant qu'elles se fixent.

Nous conseillons de faire sécher tous les coussins avec régularité en ouvrant la fermeture éclair des housses et permettant la ventilation.

Toutes les instructions pour l'entretien et nettoyage indiquées dans la "fiche qualité" fournie avec les meubles sont à suivre avec attention.

Tous les coussins sont réalisés exclusivement en Italie en utilisant des matériaux de rembourrage 'made in Italy'.

COVERS_ Pour une meilleure protection des meubles nous conseillons des housses en tissu PVC et Polyester imperméables. Les housses protègent des intempéries ainsi que des poussières et impuretés atmosphériques. Elles sont disponibles pour une partie des modèles comme indiqué dans le tarif.
